INVITEES

- Stakeholder teams from each California county including high-level representation from the County Board of Supervisors, County Administrative Officers, Probation, Sheriff's Office, Judiciary, Defender Office, District Attorneys, and Police Department
- Participants are encouraged to come as county teams.
- State and federal legislators and their staffs are also invited to attend.
- This event is open to the public.

PRESENTATIONS

We anticipate featuring three separate panels showcasing local implementation of evidence-based practices that could help alleviate the burden of increased population management and fiscal constraints.

PANEL I: IMPACTING JAIL POPULATIONS	PANEL II: REALIGNMENT AND SENTENCING	PANEL III: EVIDENCE-BASED PROBATION SUPERVISION
<i>This panel is expected to cover a pretrial services program, outlining the use and benefits of a risk assessment and pretrial supervision and the resulting effects on jail populations.</i>	<i>This panel will explore the science behind evidence-based sentencing.</i>	<i>A range of speakers will be asked to discuss community-based supervision and describe how efforts already underway in counties can translate into potential successes and opportunities in the world of realignment.</i>
