Hi Jack,

Thanks for this information re: the Grading modification for Lots 5-8. I have some follow-up questions:

1. Are vendors counted in the 6 personnel, including the ones running the off and on street equipment? If not, please include an estimate of vendor personnel and their trips per day.
2. Noel said he would use smaller trucks. I need confirmation from Noel that this reflects his equipment list and personnel list
3. What is the average length of on-road vehicle trips (in miles) for workers and vendors?
4. What is the length of the haul route in miles?

Once I get these numbers, I can pass this along to the CEQA consultant.

Thanks!

Camille,

BKF has prepared the grading and truck hauling information relative to lots 5 thru 8 that you have requested and I am forwarding to you for your use.

Cordially,

Jack Chamberlain

Noel,

To assist you with addressing the information Camille was looking for, please review and edit the attached draft as required.

When completed submit to Camille, so that she can complete the Air Quality analysis and lots 5 -8 can be premitted.
