Dear Steven,

Thanks for the email, but these documents are reaching less than three days before the hearing. What is the notification requirement?

I have received Attachment A, but apparently not not attachments B—F (although perhaps the additional file in your email constitutes attachments B and C). F is of particulate importance as this is the discussion reading the major concern brought up last spring - the investigation of co-localtion.

Currently, we are at a disadvantage as we do not have this attachment prior to the hearing, and if we did, we little opportunity for review since it is already after business hours on the 2nd and the hearing is the 5th.

Sincerely,

David
